

Apply to our IoT Startup-program* and be one of the lucky ones to get up to 10 sensor nodes for free

We know from experience that building IoT from scratch is difficult because it requires:

- Expensive, specialised teams
- Specific sensors that are difficult to source
- Scale which requires manufacture volume

That's why we created the Universal Sensor Node Platform; to help you accelerate IoT for Startups.

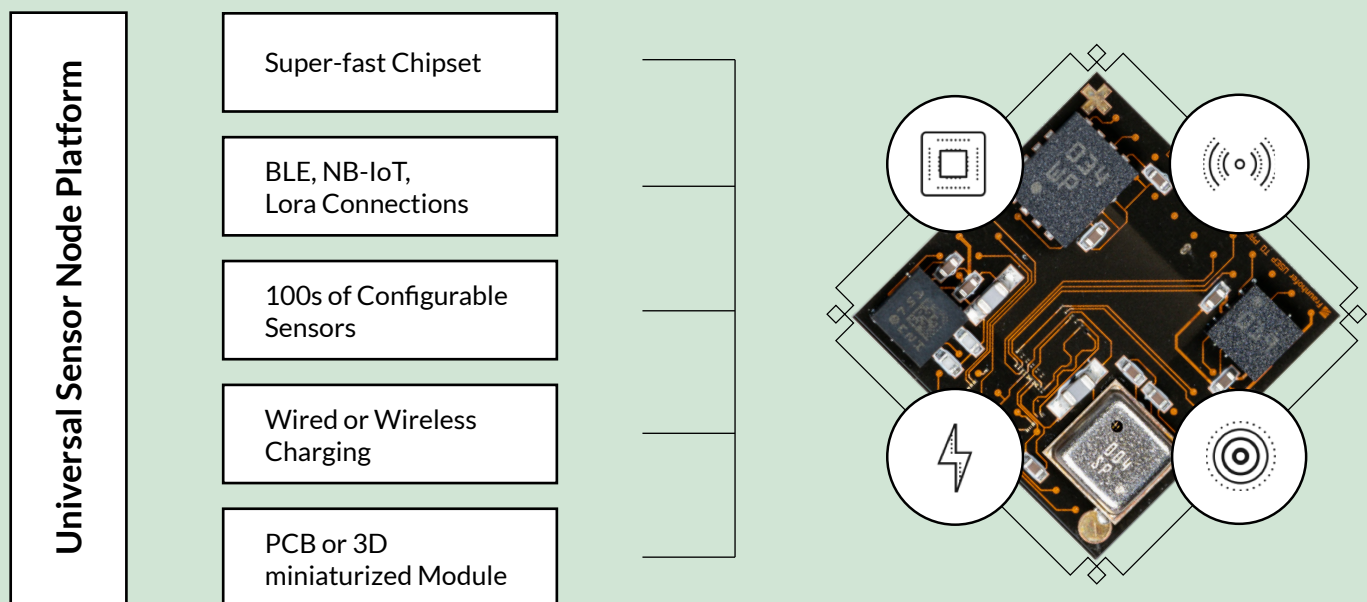

APPLY HERE

Application deadline

31.May 2020

sensry
UNIVERSAL SENSOR PLATFORM

And to make it attractive we giving away free trials

How it works

- Apply on our **Sensry form**
- Get up to 10 Kallisto Sensor Nodes, Software & Services for prototyping
- Run a 6-Month test trial

Eligible for Startups that

- ✓ have only software engineering power (no or a little hardware)
- ✓ need easy configurable IoT sensors
- ✓ want scalable manufacturing
